

## **ADDENDUM #2**

### **NORTH KANE COUNTY EVENTS CENTER**

Regarding the foundation plan construction drawings, it has been brought to our attention that the footings for the support of the lean-to structure are not included in the current bid documents. The following revisions have been made to the bid documents:

1. New sheet S1.1 has been added to the bid documents. This sheet shows the layout and references for the footings to support the lean-to structure.
2. Foundation detail sheet S3.0 has been updated to include detail 109 which is referenced on the new foundation plan sheet S1.1
3. Plan Notes / Schedules sheet S0.2 has been updated to include footing F7 on the footing schedule and baseplate B3 on the baseplate schedule. Both footing F7 and baseplate B3 are referenced on new foundation sheet S1.1.
