

Kane County Commission
Clarification on County Services in Unincorporated Areas

FOR IMMEDIATE RELEASE

September 15, 2021

As our county continues to grow at unprecedented rates, we feel it necessary to clarify what services a county provides to people who live in the unincorporated areas of the county.

Those who reside in, have moved into or are contemplating moving into an unincorporated area of the county need to clearly understand that the county does not provide municipal-type services.

We know that many people want municipal-type services for convenience, insurance, and other value-added purposes.

That said, there are ways that the county can assist people living in the unincorporated areas of the county to access and secure municipal-type services. Special districts are one available tool to assist those who want to work together to expand various services.

The commission stands ready to listen and to work with interested parties seeking information and exploring ways to expand their services needs and desires.
