SUBJECT: Opioid Settlement Expenditures 2022

To Whom it May Concern:

1. Kane County Utah received \$54,135.62 from the National Opioid Settlement in 2022.
2. The Kane County Commission budgeted the 2022 Opioid Settlement Funds to help build a Drug Court Facility for Kane County. The Drug Court Program in Kane County helps community members break the cycle of crime and substance abuse/use. The Drug Court provides reintegration and recovery support to community members and their families. This project is still in the planning/building stage and no Opioid funds have been expended yet. The Opioid funds will be used for the debt service agreement on the Drug Court portion of the new Community Outreach Facility.
